EXPERIENCE

Origin, Frontend engineer

January 2022 - Present

I was part of a core team responsible for authentication, 2FA, and onboarding. Currently, I am part of a team focused on enhancing core financial products, including investments, spending, budgeting, and equity management.

Stack: React.js, Typescript, Context API, Styled-components, Jest, React Testing Library, AWS Cognito, NX Monorepo.

Apto, Frontend engineer

July 2021- January 2022

Led enhancements to the core product utilizing NextJS and GraphQL, driving significant gains in Web Vitals score, SEO performance.

Stack: React.js, NextJS, GraphQL, Styled-components.

Fattoria, Frontend Developer

November 2019 - June 2021

Proficient in crafting dynamic web experiences utilizing HTML and CSS templates, with a specialization in creating impactful landing pages. Additionally, I've successfully integrated React into recent projects, enhancing their performance and interactivity.

Stack: React.js, JQuery, HTML5, CSS3.
